

FRENCH PRESS

RECIPE

africablack[®]

COFFEE * ROASTERY

62g Coffee

•

900g water

Coarsely grind 62g of coffee and drop it in the bottom of the French Press

Place the French Press on the scale and zero it

Pour water vigorously up to 900g making sure to wet all the grounds

Stir the coffee, then place the plunger lid over the grounds and depress just enough so that the bed of grounds is fully submerged

Wait four minutes and then plunge coffee
